Shaqodoon Organization

Type of Company: Service provider

Contact Name: Ahmed Ali

Contact Email: A.Ali@Shaqodoon.org

Contact Phone Number: +252 63 4407414

Region/Location of Operation: Somalia, Somaliland and Puntland

Shaqodoon Organization offers youth customized comprehensive training programs such as work readiness, entrepreneurship [Build Your Business training] and financial literacy that links youth with the local business community, financial institutions and above all encourages the youth to inculcate entrepreneurial culture. Shaqodoon is in the process of spinning-off some of its services to become a Social Enterprise that will provide technology innovations and fund management services. Shaqodoon also utilizes innovative cell phone and web-based technologies that provide platforms for NGOs, donors, private sector and government to deliver SMS/Voice feedback services to promote accountability, transparency and effective monitoring. This service is accessible to a wide variety of community members including job-matching for jobseekers and employers.

Renewable Energy Company

ALEL

Type of Company: Energy provider
Contact Name: Mohamed sh Farah
Contact Email: mfarah101@gmail.com
Contact Phone Number: +252 63 4022298
Region/Location of Operation: Hargeisa

ALEL is the largest energy provider in Somaliland. ALEL is planning to merge with the second largest Energy provider of Hargeisa GE or KAAH.

Badhan Electricity Company

Type of Company: Electric company
Contact Name: Mohamed Shire
Contact Email: chire44@gmail.com
Contact Phone Number: +252 90 7794132
Region/Location of Operation: Sanaag-Badhan

Badhan Electricity Company (BEC) is a profit making organization which is focusing on providing electricity to its clients. BEC is a joint stock company and has Board of Directors and executive directors. Boards of directors are the governing body of the company while the executive directors manage the day to day activities of the company. The mission of BEC is to provide its esteemed customers with the best, affordable and most professional power supply services at all times. The main objectives of BEC are to: 1. Provide stable and reliable power supply for all customers in the Badhan. 2. Committed to infrastructure investment in Generation, Transmission & Distribution networks. 3. Enable the optimum means of stability, reliability and economical operation. 4. Develop a completion in the field of independent Electricity Power. At this moment, BEC is the only one electricity provider company in Badhan. Since founded in 2003, BEC has become the leading supplier of electricity in Sanaag region, head quarter of the company is in Badhan, which has an estimated population of just over 200,000 in habitants. Badhan is situated 200 km northeast of Erigave, the capital of Sanaag. BEC is professionally managed with experts in various managerial, technical and hardworking spheres. We pride ourselves in employing the best and the brightest individuals, utilizing the highest quality materials and the delivering quality services to ensure that our customers receive the level of quality and value that they deserve. Our superior performance, professionalism and stability are evidenced by our bond rating, which is one of the best in the power supply companies in the region. Currently, company is going to shift its power plants to Solar System, instead of building large power plants, we will install Solar panels, therefore, we need to have additional fund to purchase the solar system equipment.

BECO Power

Type of Company: Electric company

Contact Name: Sadiq Sheikh

Contact Email: inaqalli@gmail.com

Contact Phone Number: +252 61 6563838

Region/Location of Operation: South and Central Somalia

BECO was established in Mogadishu on the 5th of May 2014 by the three largest privately owned electricity companies in Mogadishu that understood the importance of joining forces and unified under one single, bigger and more resourceful entity which is capable of: Improving and modernizing the generation, transmission and distribution of electricity by INVESTING in the dilapidated or, in many cases, nonexistent infrastructure and facilities including power generators, transmission systems and cables. Providing reliable, sustainable and affordable electricity to its growing number of customers in Mogadishu and its surrounding areas. Introducing modern, cost effective and environmentally friendly ways of generating electricity such as the use of renewable energy mainly Solar, Wind and Hydro.

As part of its commitment, BECO has reduced prices from \$1.20/Kw to \$0.40/Kw thanks to an early investment in infrastructure and the adoption of an ambitious plan in reducing cost of doing business including the introduction of renewable sources instead of fossil fuel. The company is about to complete the first 2.5Mw Solar Plant as part of its 20Mw Solar System plan over the next 3 years. This will further reduce prices and contribute to the global efforts in CO2 emission reduction. BECO stands for nation's economic growth in terms of quality and affordable power supply for productivity, job creation & tax revenues.

Beder Electricity Company

Type of Company: Electricity and renewal energy

Contact Name: Khadar Ibrahim Warsame

Contact Email: beder_co@yahoo.com

Contact Phone Number: +252 63 4436821 or +252 7 9300988

Region/Location of Operation: Headquarter Burao (Sahel, Saraar, Sool, and Sanaag)

Beder Electricity Company provides a quality service of supplying electricity service derived from Wind energy and Diesel generating production. Beder Also provides a variety of services of Renewal energy infrastructures such as Heavy crane services and fabrication workshop.

<p><i>No Image Provided</i></p>	<p>Boru Logistics and Transport Company</p> <p><i>Type of Company:</i> Logistics, transport and energy <i>Contact Name:</i> Abdimalik Abdullahi Ibrahim <i>Contact Email:</i> abdimalik.abdullahi@borulogistics.com <i>Contact Phone Number:</i> +252 61 7374637 <i>Region/Location of Operation:</i> Jubbaland - Kismayu</p>
<p>We provide all logistics and transport services to our clients. The company is also in preliminary stage of providing wind and solar energy in the region.</p>	

	<p>Enersom Ltd</p> <p><i>Type of Company:</i> Renewable energy product distribution <i>Contact Name:</i> Abdishakur Mohamoud <i>Contact Email:</i> abdishakur@enersomltd.so <i>Contact Phone Number:</i> +252 63 4094845 <i>Region/Location of Operation:</i> Somaliland</p>
<p>Qorax (pronounced “ko-rah,” the Somali word for “sun”) is an off-grid solar asset financing and distribution company that builds local brands in fragile states in Sub-Saharan Africa. Enersom is Qorax's Somalia subsidiary company. Enersom currently distributes and offer payment plans for a wide range of off-grid solar products, from lanterns to home systems, in Somaliland.</p>	

<p><i>No Image Provided</i></p>	<p>Erigavo Electricity Power Company (Eepco)</p> <p><i>Type of Company:</i> Independent power producer <i>Contact Name:</i> Mohamud Dalmar <i>Contact Email:</i> msdalmar@yahoo.com <i>Contact Phone Number:</i> +252 2 5874555 <i>Region/Location of Operation:</i> Erigavo</p>

	<p>Futurepump Ltd</p> <p><i>Type of Company:</i> Energy technology <i>Contact Name:</i> Kinya Kimathi <i>Contact Email:</i> kinya.kimathi@futurepump.com <i>Contact Phone Number:</i> +254 71 5539911 <i>Region/Location of Operation:</i> Kenya</p>
<p>Futurepump Ltd have developed a low cost, solar-powered irrigation pump in Kenya, called the SUNFLOWER. The SUNFLOWER offers an alternative to back-breaking manual methods of pumping water, and a cheaper form of irrigation than petrol or diesel pumps. It a PV panel directly connected to a simple reciprocating pump. It can lift 12,000 litres/day and can irrigate around 1/2 acre.</p>	

<p>No Image Provided</p>	<p>Gaane Solar Company</p> <p><i>Type of Company:</i> Solar and electricity services <i>Contact Name:</i> Mohamed W Ismail <i>Contact Email:</i> gaaneco@hotmail.com <i>Contact Phone Number:</i> +252 63 4426585 <i>Region/Location of Operation:</i> Ali Somaliland</p>
<p>I install both solar and electricity in every capacity in all over Somaliland.</p>	

	<p>Golis Energy Company</p> <p><i>Type of Company:</i> Renewable energy provider <i>Contact Name:</i> Isahak Ahmed <i>Contact Email:</i> golis.energy@gmail.com <i>Contact Phone Number:</i> +252 63 4152831 <i>Region/Location of Operation:</i> Somaliland</p>
<p>We are leading company on renewable energy systems in Somaliland and started the Solar and wind energy supply installation and maintenance in 2003 and grew up to company level, and host 20 staff and installed over 600 sites in the regions, including Djibouti and Ethiopia zone five.</p>	

Green Solutions Enterprise LLC

Type of Company: Sustainable green energy

Contact Name: Safia Farah

Contact Email: greensolutionsenterprise@gmail.com

Contact Phone Number: 651-983-0487

Region/Location of Operation: Somalia

Our goal is to provide an off-grid Solar energy across Somalia. This type of energy will contribute to creating jobs for younger generation who lack enough employment opportunity and develop skills in the energy sector.

Heco Electricity Company and Erigavo Electricity

Type of Company: Independent power producer

Contact Name: Mohamed Ahmed Liban

Contact Email: mliban1964@gmail.com

Contact Phone Number: +252 63 4437605

Region/Location of Operation: Burao, Somaliland

We are independent Power producer in two cities in Somaliland i.e. Burao and Erigavo. We serve over 30000 clients and provide them electricity. We are currently generating energy from Diesel oil but now we are moving to Renewable energy. Currently we are installing 1MW solar project at Burao and 450 kw wind turbine as a hybrid system. In Erigavo we are currently installing 450 kW wind turbine and probably 500kw Solar energy in 2016.

HOMER Energy

Type of Company: Software and service provider

Contact Name: Peter Lilienthal

Contact Email: peter@homerenergy.com

Contact Phone Number: +1 720 5654046

Region/Location of Operation: Global

HOMER Energy is the exclusive distributor and support organization for the HOMER software. HOMER identifies least cost power solutions for remote power solutions and other microgrids and distributed power applications. We also offer training and consulting on microgrid design, rural electrification planning, and distributed power technologies.

Horn Renewable Energy Company – Kaafi Solar

Type of Company: Renewable energy provider

Contact Name: Said Abib

Contact Email: kaafi_horn@yahoo.com

Contact Phone Number: +252 63 4596128

Region/Location of Operation: Marodijex, Awdal, with partners in all regions of Somaliland

The company supplies and installs for its customers all renewable energy system solutions; the home systems, school or hospital systems, water pumping systems, street lighting, etc. The services given by the company are the sizing and configuration of the systems, electricity correction of residences, phone charging services, light rental services in the rural area, cooling / freezing services, as well as the maintenance and repairing services for the solar systems.

Iftiin

Type of Company: Sales and distribution of quality solar lighting products

Contact Name: Jeremy Wyatt

Contact Email: jeremy@iftiin.com

Contact Phone Number: +254 70 4500050

Region/Location of Operation: Mogadishu

IFTIIN (Meaning 'Light') is a for profit high impact business venture that has been formed to import and distribute solar lights to the Somali peninsular, defined as South Central (Mogadishu and surrounds), Somaliland and Puntland. This socially driven business has the objective to eradicate the kerosene lamp, decrease poverty and improve the quality of life for millions of low-income Somali households through the introduction of high quality solar products at affordable prices.

LESCO

Type of Company: Power provider

Contact Name: Abdi Gelle

Contact Email: abdigele@gmail.com

Contact Phone Number: +252 63 4141418

Region/Location of Operation: Lasanod

LESCO was the first company in the Horn of Africa to have successfully implemented a Hybrid (PV/Diesel) system. It was then the biggest of its type in Africa and a flagship for others to look up to. LESCO is glad to have lead and paved the way for others to appreciate that the SUN can indeed be harnessed to produce electricity in a bigger scale and is therefore commercially viable endeavour, while decreasing your Carbon footprint.

No Image Provided

SATCO

Type of Company: Light industries

Contact Name: Mohamed Ibrahim Ismail

Contact Email: rff99@hotmail.com

Contact Phone Number: +252 63 4426063

Region/Location of Operation: Hargeisa, Somaliland

Located in the western part of the capital city Hargeisa of Somaliland, SATCO Group of Light Industries established the industry in 2004. As a large company, established on an area of 30,000m² with factory and office buildings using 6,500m², the total investment is around USD8 million. The company had started its journey in 1988 as commercial general trading and extended its operation as a manufacturing industry in 2004. Currently it has four factory units: Mattress/Foams, Water and Juice bottles, Paper Cartoons and Plastics. We employ over 100 workers and exploring renewable energy options for long term sustainability of the company, reduce high energy cost and sustain the jobs of workers threatened by the high energy consumption costs of the factory.

SECCCO

Type of Company: Solar installer

Contact Name: Samatar Omar Mohamoud

Contact Email: seccco10@gmail.com

Contact Phone Number: +252 90 7794426

Region/Location of Operation: main office in Puntland, but operates all Somalia

We provide solar installation including residential houses, street lighting, solar water pumps, etc. We are also involved solar cooking stoves production and supply it to the market. We provide other energy consulting services.

Solargen Technologies Limited

Type of Company: Renewable energy provider

Contact Name: Abubakar Aidarus

Contact Email: abubakar@solargentechnologies.com

Contact Phone Number: +252 61 6100174

Region/Location of Operation: South Central

We are specifically interested in promoting Solar Powered Pumping System for drinking water and irrigation.

	<p>Sollatek Electronics Kenya Ltd</p> <p><i>Type of Company:</i> Solar</p> <p><i>Contact Name:</i> Natalie Balck</p> <p><i>Contact Email:</i> natalie.balck@sollatek.co.ke</p> <p><i>Contact Phone Number:</i> +254 71 5511043</p> <p><i>Region/Location of Operation:</i> East Africa</p>
<p>Sollatek Electronics (Kenya) Ltd is an exclusive agent of Sollatek UK, which was founded in 1983 and has become a global leader in supplying products to protect electrical and electronic equipment. Sollatek UK has offices in 14 countries with a distribution network in 24. The Sollatek voltage protection range includes voltage switchers, stabilizers, conditioners and uninterruptible power supplies (UPS). Since 1987, Sollatek has been involved in the field of renewable energy developing solar power products and systems. The Sollatek Solar Division supplies complete turnkey solar systems and ancillary equipment including solar energy systems, solar modules, charge controllers, batteries, solar home systems and portable lanterns. Sollatek Electronics (Kenya) Limited has been in operation since 1985 as the sole authorised agent for Sollatek products and the owner of the Sollatek franchise in East Africa. Our Head Office is in Mombasa and we run a sister operation in Dar Es Salaam, Tanzania. We operate as a wholesale and distribution outfit and sell our products through a regionwide network of distributors. We have attempted to ensure that a Sollatek distributor exists in every major town in East Africa. To bring our after sales and warranty backup services closer to the end-user, we have established Service Centers in various parts of the region. Currently, we have Service Centers manned by qualified Sollatek engineers in Nairobi (2), Mombasa, Kisumu, Meru, Dar Es Salaam, Arusha and Kampala. In 2013 and again in 2015, Sollatek Electronic (Kenya) was named one of Kenya's Top 100 Mid-Size companies in East Africa by KPMG Kenya.</p>	

	<p>Tayo Energy (Berbera Electricity Company)</p> <p><i>Type of Company:</i> Independent power producer</p> <p><i>Contact Name:</i> Abdirazak M. Ali</p> <p><i>Contact Email:</i> abdirazak_ali@hotmail.com</p> <p><i>Contact Phone Number:</i> +252 63 4244162</p> <p><i>Region/Location of Operation:</i> Sahil / Berbera</p>
<p>Tayo Energy partnered with the Ministry of Public Works to provide electricity to Berbera City at the most reasonable price structure to create business friendly environment and currently working diligently to reduce fossil fuel dependence.</p>	

<p><i>No Image Provided</i></p>	<p>TEKNOPOWER SOMALIA LTD</p> <p><i>Type of Company:</i> Energy products distributor <i>Contact Name:</i> Mohamed Dahir <i>Contact Email:</i> m.dahir@taknopower.so <i>Contact Phone Number:</i> +252 61 7071862 <i>Region/Location of Operation:</i> Mogadishu, Somalia</p>
<p>Tekno Power Somalia (Ltd) is authorized dealer for Cummins and Valvoline products in Somalia. Currently, it is the leading Company for sales of Generators, Engine parts, lubricants and generator service maintenance in Somalia. The company main office is in Mogadishu. Today dedicated staff travel to key markets including Somaliland and Puntland.</p>	

	<p>TellusMater - Tecnergy</p> <p><i>Type of Company:</i> Energy products manufacturer <i>Contact Name:</i> Alexandre Tereso <i>Contact Email:</i> alexander.tereso@tellusmater.eu <i>Contact Phone Number:</i> +351 22 3754925 <i>Region/Location of Operation:</i> Africa and Brasil</p>
<p>Tellusmater S.A. was founded in Portugal (2007) and has, currently, headquarters in Brazil (2012) and Angola (2014). We are a company focused on engineering solutions, pioneers in LED lighting (2010), renewable energy in hostile environments (2015) and fleet location (2008). We were able to change the status quo of the market, global and changeable, through a unique business model which generates a stable commercial commitment with the client, from reducing lighting costs to reducing costs with fleets or installation of renewable energy units in hostile environments. We want to be a stable reference in a diffuse and volatile market through excellence and quality of the products we design, materialized by a multidisciplinary and dynamic team: from research and development to commercial, financial, production, installation and maintenance area up to the network of official partners present in Europe, Africa and South America. Our vision establishes two fields of action, the first one is to direct affordable and targeted technology to the reduction of costs with optimization of resources, and the second one is the associated social and environmental responsibility.</p>	

W. Giertsen Energy Solutions

Type of Company: Energy solutions

Contact Name: Deborah Ssempasa

Contact Email: Deborah.ssempasa@giertsen.no

Contact Phone Number: +254 70 5872978

Region/Location of Operation: Eastern Africa

We offer ready to deploy energy solutions that are reliable and secure power supply with unchanged power rates at any time. Our energy systems are the perfect solutions for remote locations as an autarkic solution, in hybrid connections or as a fuel save in combination with existing diesel generation.

International Organization/Donor

	<p>International Finance Corporation (IFC)</p> <p><i>Type of Company:</i> Development partner <i>Contact Name:</i> Fred Zake <i>Contact Email:</i> FZake@ifc.org <i>Contact Phone Number:</i> +254 71 0602660 <i>Region/Location of Operation:</i> Global</p>
<p>The IFC is the largest private sector development organization supporting developing countries, across multiple sectors, including energy, providing a wide range of advisory and investment services to our clients.</p>	

	<p>Shuraako</p> <p><i>Type of Company:</i> Non Profit, Investment Broker <i>Contact Name:</i> Abdikarim Gole <i>Contact Email:</i> agole@shuraako.org <i>Contact Phone Number:</i> +252 63 3464449 <i>Region/Location of Operation:</i> South Central, Puntland, Somaliland</p>
<p>Shuraako is a nonprofit implementation project of the One Earth Future Foundation (OEF), operating throughout Somalia. Shuraako, which means “partnership” in Somali, brokers economically beneficial relationships that connect micro, small and medium sized enterprises (MSMEs) to impact investors to catalyze job creation. This in turn contributes to a more resilient and peaceful Somalia. Shuraako achieves this by identifying and recommending eligible Somali businesses to impact investors and charitable funds, and servicing approved financing. Shuraako seeks to foster a thriving business sector by addressing the financial gap in Somalia and brokering productive partnerships that encourage economic development.</p>

We are a boutique project developer and private equity investor. We develop from green field and are happy to invest along the capital structure. Our target projects range from 150kW - 100MW.

Other

<p><i>No Image Provided</i></p>	<p>Barwaaqo Farmers Cooperative (BFC)</p> <p><i>Type of Company:</i> Cooperative <i>Contact Name:</i> Mariam Yousuf Omer <i>Contact Email:</i> mariambfc@hotmail.com <i>Contact Phone Number:</i> +252 63 4165576 <i>Region/Location of Operation:</i> Hargeisa</p>
<p>Barwaaqo Farmers Cooperative (BFC) is the largest commercial cooperative in Somaliland in agribusiness, established in October 2012, with its head office based in Hargeisa. Its operations extend across the Somaliland regions. The cooperative's main business is the provision of inputs for agricultural production, market access for smallholders' production, as well as financial, technical and logistical services to local farmers and introduce new models. Having absence of long term development and unkind living conditions the smallholder farmers of these communities determined to establish an indigenous cooperative, and after in depth discussions more than 650 farmers joined. Farmers BFC is being formed from the acquisition of local farmers. The BFC created by Small holder business to help farmers, agricultural service providers, and economic development professionals work together to develop agribusiness- the products, services, markets and business structures that are needed to sustain small farm holders and contribute to the local economy in Somaliland. Despite the impressive successes enjoyed by many group-owned agricultural businesses, information about this approach as a strategy for sustaining agriculture is widely scattered and hard to come by. This site begins to fill that void by providing access to small farmers' production commercialization, business production, distribution and marketing concepts, models and best practices. In so doing we hope to not only strengthen farmer efforts at collaboration, but equally important to contribute to the development of a strong network of agriculture service providers and business specialists supportive of their efforts.</p>	

dVentus Technologies

Type of Company: Energy solutions

Contact Name: Beza Keflemariam

Contact Email: beza.keflemariam@dventus.com

KickStart International

Type of Company: Social enterprise
Contact Name: Njeri Mbugua
Contact Email: njeri.mbugua@kickstart.org
Contact Phone Number: +254 72 4790050
Region/Location of Operation: Africa

KickStart International is an award-winning, nonprofit social enterprise with a mission to lift millions of people in Africa out of poverty - quickly, cost-effectively, and sustainably. KickStart succeeds by designing and selling durable, yet affordable, "MoneyMaker" branded irrigation pumps. With irrigation, farmers escape their dependence on the rain and grow and sell high value crops throughout the year - especially in the long dry "hungry seasons" when food is scarce and prices are high. They transform their farms into highly profitable businesses and for the first time properly feed and educate their children and plan for their futures.
